TREASURE HUNTER BOB (ZX SPECTRUM)

The purpose of game to collect in 30 seconds 20 gold treasures and avoid ghosts.In final screen you can find final treasure again magic staff.

Message in first screen in "!" was simple thank to youtube moderators who deleted part of rude posts by trolls under some of videos with my games.

If you cannot complete level 8 search for item in right down corner. Anything else should be easy enough.

For any questions ask on itch.io or by email.
